

Privacy Notice

We understand how important it is to keep your personal information safe and secure and we take this very seriously. We have taken steps to make sure your personal information is looked after in the best possible way and we review this regularly.

Please read this privacy notice ('Privacy Notice') carefully, as it contains important information about how we use the personal and healthcare information we collect on your behalf.

1. WHY WE ARE PROVIDING THIS PRIVACY NOTICE

We are required to provide you with this Privacy Notice by Law. It explains how we use the personal and healthcare information we collect, store and hold about you. If you are unclear about how we process or use your personal and healthcare information, or you have any questions about this Privacy Notice or any other issue regarding your personal and healthcare information, then please do contact our **Data Protection Officer** (details below).

The Law says:

- A. We must let you know why we collect personal and healthcare information about you;
- B. We must let you know how we use any personal and/or healthcare information we hold on you;
- C. We need to inform you in respect of what we do with it;
- D. We need to tell you about who we share it with or pass it on to and why; and
- E. We need to let you know how long we can keep it for.

2. THE DATA PROTECTION OFFICER

The Data Protection Officer for the Surgery is Mr Paul Coldrey of PCDC. Please contact him on 0115 8386770 or info@pcdc.org.uk if:

- You have any questions about how your information is being held;
- If you wish to make a complaint about anything to do with the personal and healthcare information we hold about you;
- Or any other query relating to this Policy and your rights as a patient.

3. ABOUT US

We, at Northgate Surgery ('**the Surgery**') situated at Northgate, Pontefract WF8 1NF, are a **Data Controller** of your information. This means we are responsible for collecting, storing and handling your personal and healthcare information when you register with us as a patient.

There may be times where we also process your information. That means we use it for a particular purpose and, therefore, on those occasions we may also be **Data Processors**. The purposes for which we use your information are set out in this Privacy Notice.

4. INFORMATION WE COLLECT FROM YOU

The information we collect from you will include:

- A. Your contact details (such as your name and email address, including place of work and work contact details);
- B. Details and contact numbers of your next of kin;
- C. Your age range, gender, ethnicity;
- D. Details in relation to your medical history;
- E. The reason for your visit to the Surgery;
- F. Medical notes and details of diagnosis and consultations with our GPs and other health professionals within the Surgery involved in your direct healthcare.

5. INFORMATION ABOUT YOU FROM OTHERS

We also collect personal information about you when it is sent to us from the following:

- A. a hospital, a consultant or any other medical or healthcare professional, or any other person involved with your general healthcare.
- B. other bodies in relation to firearms applications, DVLA, immigration matters, court orders, benefits etc

6. YOUR SUMMARY CARE RECORD

Your summary care record is an electronic record of your healthcare history (and other relevant personal information) held on a national healthcare records database provided and facilitated by NHS England.

This record may be shared with other healthcare professionals and additions to this record may also be made by relevant healthcare professionals and organisations involved in your direct healthcare.

You may have the right to demand that this record is not shared with anyone who is not involved in the provision of your direct healthcare. If you wish to enquire further as to your rights in respect of not sharing information on this record then please contact our Data Protection Officer.

To find out more about the wider use of confidential personal information and to register your choice to opt out if you do not want your data to be used in this way, please visit www.nhs.uk/my-data-choice.

Note if you do choose to opt out, you can still consent to your data being used for specific purposes. However, if you are happy with this use of information you do not need to do anything. You may however change your choice at any time.

7. WHO WE MAY PROVIDE YOUR PERSONAL INFORMATION TO, AND WHY

Whenever you use a health or care service, such as attending Accident & Emergency or using Community Care Services, important information about you is collected to help ensure you get the best possible care and treatment. This information may be passed to other approved organisations where there is a legal basis, to help with planning services, improving care, research into developing new treatments and preventing illness. All of this helps in providing better care to you and your family and future generations. However, as explained in this privacy notice, confidential information about your health and care is only used in this way where allowed by law and would never be used for any other purpose without your clear and explicit consent.

We may pass your personal information on to the following people or organisations, because these organisations may require your information to assist them in the provision of your direct healthcare needs. It, therefore, may be important for them to be able to access your information in order to ensure they may properly deliver their services to you:

- A. Hospital professionals (such as doctors, consultants, nurses, etc);
- B. Other GPs/Doctors;
- C. Pharmacists;
- D. Nurses and other healthcare professionals;
- E. Dentists;
- F. Any other person that is involved in providing services related to your general healthcare, including mental health professionals.
- G. Opticians;

8. OTHER PEOPLE WHO WE PROVIDE YOUR INFORMATION TO

- A. Commissioners;
- B. Local authorities;
- C. Community health services;
- D. For the purposes of complying with the law e.g. Police, Solicitors, Insurance Companies;

- E. NHS Trusts
 - F. Private Sector Providers
 - G. Voluntary Sector Providers
 - H. Ambulance trusts
 - I. Social Care Services
 - J. Local authorities
 - K. Education services
 - L. Judicial services
 - M. NHS digital - for commissioning and healthcare planning purposes
 - N. Anyone you have given your consent to, to view or receive your record, or part of your record. **Please note, if you give another person or organisation consent to access your record we will need to contact you to verify your consent before we release that record. It is important that you are clear and understand how much and what aspects of, your record you give consent to be disclosed.**
 - O. **Extended Access** – we provide extended access services to our patients which means you can access medical services outside of our normal working hours. In order to provide you with this service, we have formal arrangements in place with the Clinical Commissioning Group and with other practices whereby certain key “**hub**” practices offer this service on our behalf for you as a patient to access outside of our opening hours. This means, those key “**hub**” practices will have to have access to your medical record to be able to offer you the service. Please note to ensure that those practices comply with the law and to protect the use of your information, we have very robust data sharing agreements and other clear arrangements in place to ensure your data is always protected and used for those purposes only. You will need to give permission for your data to be shared before accessing these services.
- The key **Hub** practices are as follows:
Trinity Medical Centre
Pontefract Hospital
- P. **Data Extraction by the Clinical Commissioning Group** – the clinical commissioning group at times extracts medical information about you, but the information we pass to them via our computer systems **cannot identify you to them**. This information only refers to you by way of a code that only your practice can identify (it is pseudo-anonymised). This therefore protects you from anyone who may have access to this information at the Clinical

Commissioning Group from **ever** identifying you as a result of seeing the medical information and we will **never** give them the information that would enable them to do this.

There are good reasons why the Clinical commissioning Group may require this pseudo-anonymised information, these are as follows:

- To make financial claims for payment
- To process individual funding requests for your care
- To communicate safeguarding issues
- Members of the Medicines Management team may conduct Medicines Management Reviews of medications prescribed to its patients. This service performs a review of prescribed medications to ensure patients receive the most appropriate, up to date and cost effective treatments. All members of staff carrying out this duty are bound by strict confidentiality agreements.

Q. Risk Stratification

Risk stratification data tools are increasingly being used in the NHS to help determine a person's risk of suffering a particular condition, preventing an unplanned or (re)admission and identifying a need for preventive intervention. Information about you is collected from a number of sources including NHS Trusts and from this GP Practice. A risk score is then arrived at through an analysis of your de-identified information using software managed by Embed, and is only provided back to your GP as data controller in an identifiable form. Risk stratification enables your GP to focus on preventing ill health and not just the treatment of sickness. If necessary your GP may be able to offer you additional services.

Please note that you have the right to opt out of your data being used in this way.

R. Pharmacists in General Practice Schemes

Practices either individually or as an alliance or federation of Practices may employ Pharmacists to carry out a number of duties such as medication reviews and medicines reconciliations. Sometimes they may be based in another Practice and use remote access to view a patient record in our Practice. Access is granted via our clinical system which requires the user to have a validated identity card, user name and password. In addition, all users sign a confidentiality agreement.

9. ANONYMISED INFORMATION

Sometimes we may provide information about you in an anonymised form. If we do so, then none of the information we provide to any other party will identify you as an individual and cannot be traced back to you.

10. YOUR RIGHTS AS A PATIENT

The Law gives you certain rights to your personal and healthcare information that we hold, as set out below:

A. Access and Subject Access Requests

You have the right to see what information we hold about you and to request a copy of this information.

If you would like a copy of the information we hold about you please email our Data Protection Officer. We will provide this information free of charge however, we may in some **limited and exceptional** circumstances have to make an administrative charge for any extra copies if the information requested is excessive, complex or repetitive.

We have one month to reply to you and give you the information that you require. We would ask, therefore, that any requests you make are in writing and it is made clear to us what and how much information you require.

B. Online Access

You may ask us if you wish to have online access to your medical record. However, there will be certain protocols that we have to follow in order to give you online access, including written consent and production of documents that prove your identity.

Please note that when we give you online access, the responsibility is yours to make sure that you keep your information safe and secure if you do not wish any third party to gain access.

C. Correction

We want to make sure that your personal information is accurate and up to date. You may ask us to correct any information you think is inaccurate. It is very important that you make sure you tell us if your contact details including your mobile phone number has changed.

D. Removal

You have the right to ask for your information to be removed however, if we require this information to assist us in providing you with appropriate medical services and diagnosis for your healthcare, then removal may not be possible.

E. Objection

We cannot share your information with anyone else for a purpose that is not directly related to your health, e.g. medical research, educational purposes, etc. We would ask you for your consent in order to do this however, you have the right to request that your personal and healthcare information is not shared by the Surgery in this way. Please note the Anonymised Information section in this Privacy Notice.

F. Transfer

You have the right to request that your personal and/or healthcare information is transferred, in an electronic form (or other form), to another organisation, but we will require your clear consent to be able to do this.

11. THIRD PARTIES MENTIONED ON YOUR MEDICAL RECORD

Sometimes we record information about third parties mentioned by you to us during any consultation. We are under an obligation to make sure we also protect that third party's rights as an

individual and to ensure that references to them which may breach their rights to confidentiality, are removed before we send any information to any other party including yourself. Third parties can include: spouses, partners, and other family members.

12. HOW WE USE THE INFORMATION ABOUT YOU

We use your personal and healthcare information in the following ways:

- A. when we need to speak to, or contact other doctors, consultants, nurses or any other medical/healthcare professional or organisation during the course of your diagnosis or treatment or on going healthcare;
- B. when we are required by Law to hand over your information to any other organisation, such as the police, by court order, solicitors, or immigration enforcement.

We will never pass on your personal information to anyone else who does not need it, or has no right to it, unless you give us clear consent to do so.

13. LEGAL JUSTIFICATION FOR COLLECTING AND USING YOUR INFORMATION

The Law says we need a **legal basis** to handle your personal and healthcare information.

CONTRACT: We have a contract with NHS England to deliver healthcare services to you. This contract provides that we are under a legal obligation to ensure that we deliver medical and healthcare services to the public.

CONSENT: Sometimes we also rely on the fact that you give us consent to use your personal and healthcare information so that we can take care of your healthcare needs.

Please note that you have the right to withdraw consent at any time if you no longer wish to receive services from us.

NECESSARY CARE: Providing you with the appropriate healthcare, where necessary. The Law refers to this as 'protecting your vital interests' where you may be in a position not to be able to consent.

LAW: Sometimes the Law obliges us to provide your information to an organisation (see above).

14. SPECIAL CATEGORIES

The Law states that personal information about your health falls into a special category of information because it is very sensitive. Reasons that may entitle us to use and process your information may be as follows:

PUBLIC INTEREST: Where we may need to handle your personal information when it is considered to be in the public interest. For example, when there is an outbreak of a specific disease and we need to contact you for treatment, or we need to pass your information to relevant organisations to ensure you receive advice and/or treatment;

CONSENT: When you have given us consent;

VITAL INTEREST: If you are incapable of giving consent, and we have to use your information to protect your vital interests (e.g. if you have had an accident and you need emergency treatment);

DEFENDING A CLAIM: If we need your information to defend a legal claim against us by you, or by another party;

PROVIDING YOU WITH MEDICAL CARE: Where we need your information to provide you with medical and healthcare services

15. HOW LONG WE KEEP YOUR PERSONAL INFORMATION

We carefully consider any personal information that we store about you, and we will not keep your information for longer than is necessary for the purposes as set out in this Privacy Notice.

16. UNDER 13s

There is a separate privacy notice for patients under the age of 13, a copy of which may be obtained on request.

17. IF ENGLISH IS NOT YOUR FIRST LANGUAGE

If English is not your first language you can request a translation of this Privacy Notice. Please contact our Data Protection Officer.

18. COMPLAINTS

If you have a concern about the way we handle your personal data or you have a complaint about what we are doing, or how we have used or handled your personal and/or healthcare information, then please contact our Data Protection Officer.

However, you have a right to raise any concern or complaint with the UK information regulator, at the Information Commissioner's Office: <https://ico.org.uk/>.

19. OUR WEBSITE

The only website this Privacy Notice applies to is the Surgery's website. If you use a link to any other website from the Surgery's website then you will need to read their respective privacy notice. We take no responsibility (legal or otherwise) for the content of other websites.

20. COOKIES

The Surgery's website is hosted and maintained by My Surgery Website Ltd. You can be assured that the Website does not use cookies to track your activity online.

My Surgery Website Limited does not set first party cookies on the website containing any personal data unless specifically instructed to do so by the user. For example, if a user requests to be remembered on a form then a cookie is set to retain the form data for next time.

The Web Site uses third-party Cookies to collect anonymous traffic data about your use of this website. This information is stored by Google and subject to their privacy policy, which can be viewed here: <http://www.google.com/privacy.html>. Google Analytics collects information such as pages you visit on this site, the browser and operating system you use and time spent viewing pages. The purpose of this information is to help us improve the site for future visitors. **These cookies are not used to track you or your activity but if you do not wish these cookies to be stored on your computer, disable cookies in your browser settings.**

You may delete Cookies at any time. See the help in your internet browser to find out

21. SECURITY

We take the security of your information very seriously and we do everything we can to ensure that your information is always protected and secure. We regularly update our processes and systems and we also ensure that our staff are properly trained. We also carry out assessments and audits of the information that we hold about you and make sure that if we provide any other services, we carry out proper assessments and security reviews.

22. TEXT MESSAGING AND CONTACTING YOU

Because we are obliged to protect any confidential information we hold about you and we take this very seriously, it is imperative that you let us know immediately if you change any of your contact details.

We may contact you using SMS texting to your mobile phone in the event that we need to notify you about appointments and other services that we provide to you involving your direct care, therefore you must ensure that we have your up to date details. This is to ensure we are sure we are actually contacting you and not another person.

23. THE NATIONAL DATA-OUT. FOR PURPOSES BEYOND DIRECT CARE.

NHS Digital is developing a new system to support the national data opt-out which will give patients more control over how identifiable health and care information is used for reasons other than your individual care and treatment. The system will offer patients and the public the opportunity to make an informed choice about whether they wish their personally identifiable data to be used for purposes beyond their direct care such as research and planning purposes.

In the past, you may have already chosen to prevent your identifiable data leaving NHS Digital, known as a Type 2 opt-out. All existing Type 2 opt-outs will be converted to the new national data opt-out and this will be confirmed by a letter to all individuals aged 13 or over with an existing Type 2 in place. Once the national data opt-out is launched, it will no longer be possible to change preferences via local GP practices.

The national data opt-out is due to be launched on 25 May 2018.

More information is available via <https://digital.nhs.uk/national-data-opt-out>

TELEPHONE RECORDINGS

We record all telephone conversations taking place at the surgery. We do this for training and monitoring purposes. It also helps us to deal with any complaints from patients or staff. Whenever telephoning the surgery, patients are informed that calls are recorded. The recordings are stored on a password protected computer which can only be accessed by authorised personnel.

CCTV

CCTV is in operation in the car park only for security purposes. Images are not released to users of the car park. Images are only released to help with official investigations eg by the Police and only if official permission has been requested in writing and the Practice deem it necessary to comply with the law or in the interest of the public. If this is the case, the images will be viewed on the premises. Images of other users of the car park and their vehicles will be made unidentifiable. Images are kept for one month and then erased.

24. WHERE TO FIND OUR PRIVACY NOTICE

You may find a copy of this Privacy Notice in the Surgery's reception, on our website, or a copy may be provided on request.

25. CHANGES TO OUR PRIVACY NOTICE

We regularly review and update our Privacy Notice. This Privacy Notice was last updated on 22/5/18.

CCTV owners will usually have to send you a copy of the footage by law, though they can refuse your request for a number of legally valid reasons. One obvious grounds for refusal would be if it puts a criminal investigation at risk. Another reason would be if the CCTV images contain images of others, for the reasons previously discussed. In this situation, camera owners would technically not be able to show you the footage without the permission of all the other people on the recording. However, they could send you an edited version with others' faces blurred out in order to protect their identities.

Unfortunately, despite the legal entitlement that members of the public have to access CCTV footage of themselves, many operators have proven reluctant to release images. A researcher at the Open University in Milton Keynes wanted to see how obliging CCTV operators were, so he spent a day walking past different CCTV cameras in a city and then submitted Subject Access Requests to each of the operators. Out of the 17 he contacted, only six provided him with the images. In one scenario, when he was seeking footage from a shopping mall CCTV system, the back-and-forth between them lasted so long that by the time the operator had worked out how to get access to the footage, the system's 30-day automatic data overwrite had deleted it.

PRIMARY CARE NETWORK

The objective of primary care networks is for group practices together to create more collaborative workforces which ease the pressure of GP's, leaving them better able to focus on patient care. The aim is that by July 2019, all areas within England will be covered by a PCN.

Primary care networks form a key building block of the NHS long-term plan. Bringing general practices together to work at scale has been a policy priority for some years for a range of reasons, including improving the ability of practices to recruit and retain staff; to manage financial and estates pressures; to provide a wider range of services to patients and to more easily integrate with the wider health and care system.

All GP practices are expected to come together in geographical networks covering populations of approximately 30–50,000 patients by June 2019 if they are to take advantage of additional funding attached to the GP contract. This size is consistent with the size of the primary care homes, which exist in many places in the country, but much smaller than most GP Federations.

This means the practice may share your information with other practices within the PCN to provide you with your care and treatment.
